CLASS PLACEMENT

All instructors have the child's best learning ability in mind. All students will be placed in the appropriate level of classes according to the teacher's recommendation. The studio faculty meets regularly to discuss the students' progress and/or placement. It is our policy to offer appropriate opportunities to every child. Class placements as determined by Mary Jo are final.

Placement decisions are derived from many years of teaching experience. Often a child is placed in a particular group or class where he or she will feel confident in order to promote the development of self-esteem. Some students who are placed in a higher level become discouraged only to lose their passion for dance. Others respond to the challenge of being in a class with students who are proficient by pushing themselves to work harder. Placement is highly individual and the factors that go into the decision are complex. Each child progresses differently. Some children stay in the same level for three years or more while others may move to the next level after one year. Comparison with other students is never a good way to judge your child's progress. We ask that you place your trust in our qualified professionals. Students will be evaluated throughout the fall season and if any class changes are needed, you will be notified.

To be respectful of class time, Parents/Guardians should refrain from discussing class placements with emjazz instructors before or after classes. All class inquiries should be directed to Mary Jo at maryjo@emjazzdance.com.

Please note: Registering siblings at the same class time does not guarantee they will be in the same show.

DANCE STUDIO RULES

- **emjazz Dance Studio has a zero tolerance policy for bullying.** emjazz students and Parents/Guardians are expected to conduct themselves in the highest form of dignity, respect and morality.
- A dancer may not compete or train with emjazz Dance Studio if he or she is on another competitive dance team that competes in mainstream dance studio competitions. There is no other sport where an athlete competes on two different teams against her or himself, as it is a conflict of interest. We work hard to maintain a dedicated, positive, close team and family environment in our studio.
- Please make sure to notify the studio of any type of medical/health/emotional concerns that could inhibit the student from or while taking class. This includes any illnesses and/or injuries (i.e., sprains, concussions, pulled muscles, etc.). Dancers are encouraged to observe or Zoom in on their classes during recovery. Tuition is still applied, as students are learning through observation. Long-term/extended injuries with a doctors' note should be discussed with Mary Jo to determine options for a recovery/tuition plan.
- To Zoom in on a class during illness or injury, call or email the office 24 hours in advance to request the Zoom link.
- If you are not able to Zoom in and must miss a class due to illness, etc., please call the studio to notify us that you will not be attending class. Missed classes can be made up within one month. **All students must give 24-hour advance notice** that they will be making up a missed class. Please call the studio for the appropriate make-up class times and availability.

- **ABSOLUTELY NO GUM** is permitted in emjaez Dance Studio.
- All students must adhere to the dress code. Continual improper dress code will result in dismissal from class.
- NO cell phone/smart watch use during class with the exception of videotaping for practice purposes. Videotaping must be approved by the instructor. Any videotaping allowed during class time is not permitted to be posted on social media without the permission of the instructor/studio. Students should keep their phones in their dance bags.
- For technical placement and corrections, we are a hands-on studio.
- Students should not enter the studio until the class before them has left the room and your instructor allows you in.
- Punctuality is extremely important to ensure proper warm-up of the body. Classes will begin on time and students should be punctual to class. If a student is more than 15 minutes late, he or she must receive the teachers' permission to enter the class. Any student more than 30 minutes late may be asked to observe class only. Participation will be at the discretion of the instructor.
- ***Dance shoes should not be worn to and from class or outside at any time.*** This will add to the wear and tear of your dance shoes as well as damage our dance floors. It is also unsanitary. *Students/Parents/Guardians will not be permitted to enter a dance studio with shoes that have been worn outside.*

LOBBY RULES

The lobby is partially closed to Parents/Guardians, siblings and observers. While Parents/Guardians may view the classroom, we ask that we don't have a full lobby at any time.

- In order to keep the lobby area clear of garbage, the trash and recycle containers are located at the end of the hallway in the main lobby of emjaez.

Please be conscious of our earth by placing recyclable items in the proper containers.

- Noise in the lobby area should be kept to a minimum as to not disturb classes in progress.
- Please **DO NOT** tap, hit or waive at your dancer through the observation windows, as it is very distracting to the teachers and students in class.
- The lobby trophies are fragile. **Please do not touch.**
- Parents/Guardians: Please be respectful to the instructor and class in progress by not entering a dance studio while class is in progress or approaching an instructor at the beginning or end of class.
- Be respectful of the instructor's time between classes. If you have any questions or concerns regarding your class, please see the office.

The "Take One Give One" box is located in the studio office. All gently used dancewear and shoes can be donated there. While you're there, "take one" if you need one.

PARKING & DROP OFF/PICK-UP

Dancers will be dropped off/ picked up in a drive through fashion from the mall hallway. Parents/Guardians may also come in for drop off/pick up.

Parking is available in both the front and back of the Dover Commons parking lot. The entrance to emjaez Dance Studio can be accessed thru the front or back mall entrance. The back parking lot is **ONE WAY ONLY**. For the safety of the children, please do not leave your car parked in front of the mall entrances. This is a **FIRE ZONE**. Please be sure to pick your child up promptly after class (especially the last class of the evening). We cannot be responsible for children waiting outside of the studio. If you are going to be late, please call the office and we will inform your child to wait inside the building with us.

CLASS DESCRIPTIONS

Jazz

Jazz has always been one of the most admired dance styles, mainly due to its popularity on television shows, movies, music videos and commercials. Jazz offers an array of styles ranging from funky to traditional jazz. Jazz derives its soul from the expression of rhythm and musicality. Jazz dancing is energetic and fun, consisting of unique moves, fancy footwork, big leaps and quick turns. The jazz curriculum teaches the dancer to adapt to total body movement, isolated movement and interpretation of various music trends. To excel in jazz, dancers need a strong background in ballet, as it encourages grace and balance. The structure of this dance form is based on strength, flexibility and technique. Classes begin with a thorough conditioning warm-up that prepares the muscles, develops strength and prevents injuries. The conditioning warm-up becomes more intense as the level increases. Center control is important in jazz technique. The body's center is the focal point from which all movement emanates, thus making it possible to maintain balance while executing powerful movements.

Tap

Tap is an expression with your feet. From the American culture of "Broadway" tap to a more grounded style called rhythm tap, students will learn it all! Our tap classes are designed to provide students with a solid curriculum of the fundamentals of tap, with a strong emphasis on style, execution of steps and tap terminology. Students will learn the foundational steps that will take them from one easy sound to multiple rhythms and making music with their feet. Influenced by greats such as Fred Astaire and Gene Kelly, our tap teachers are dedicated to taking each tapper to a performance level that is strong in technique and entertaining to our audience.

3-5 & 4-6 yr Ballet and Ballet/Tap/Jazz Tiny Dancer Classes

Magically fun classes designed for our youngest dancers. This class introduces the very basics of ballet, jazz, and tap. The class will build coordination and fine motor skills in a disciplined but fun, creative and nurturing environment. Books and props may be used as a learning tool. The dancers will learn to interact with other children and learn the basics of dance classroom etiquette such as: staying in their spots, manners, taking turns, how to follow the leader and waiting patiently.

Ballet

Ballet is the foundation for all forms of dance. Students will study basic Classical Ballet technique with an emphasis on musicality and coordination. Beginning ballet lays the groundwork with proper alignment, an understanding of the turnout that defines ballet and the fundamental movements known as steps, which are ballet's vocabulary. As the level advances, ballet class is divided into barre and center exercises, or combinations, which begin with the support of the barre and are continued in the center of the classroom - free of support and moving across the floor. The barre and center work will be utilized to enhance development of strength and coordination. Students will learn the names, meanings and precise technique of each movement they are being taught. Dancers will learn ballet etiquette in a disciplined yet nurturing environment.

Pre-Professional Ballet Program

The Pre-Professional Ballet Program is by invitation only. This program is for the dedicated and committed ballet student. This class meets 2 times a week and one Saturday a month.

Musical Theatre

Musical Theatre goes beyond a dance/technique class to teach students to be expressive and use their imaginations on a whole new level. This class focuses on performance, improvisation, acting and being able to think, feel and react on your feet. Through various improv and acting exercises, students are able to take their dancing to new heights as they learn to use their dance technique to perform from the inside out. Musical Theatre plays a huge part in this class's curriculum to combine the joy of dancing with the art of story-telling, allowing students to portray characters and step into the world of acting and dancing together as an art. This type of class has the potential to help students with speaking in front of an audience and getting them to think on their feet. While musical theatre assumes the level of the class to be equal to the student's technique level, this class does not teach jazz technique. Jazz fundamentals are a must, therefore students must currently be enrolled in a jazz class or have previous experience.

Heels

You will elevate your training in this high energy, action-packed class done in heels! The heels class will cover jazz technique, jazz funk, ballroom, expression and how to build your strength and confidence in heels. Dancers should have a solid ballet/jazz background.

CLASS DESCRIPTIONS

Jumps, Leaps And Turns (JLT)

This class is designed for the serious dancer who wishes to perfect and refine their skills of jumping, leaping and turning. This class is a technique class that is dedicated to learning, improving and perfecting technique in jumps, leaps, turns, kicks, strength and conditioning with emphasis on the safe execution of these skills that are used in all forms of dance. The classes are taught with an emphasis on technique and correct body placement. They are taught in a progressive manner beginning with the basics and advancing to high-level skills and combinations. The class will challenge students across the floor and in combinations. JLT is a great technique class to add to the foundation of any form of dance you are taking. The JLT class will not participate in the show.

Lyrical

Lyrical is a very passionate and emotional dance style. It is a fusion of ballet and jazz dance techniques. Lyrical connects ballet and jazz movements together while telling a story through the music. This class allows the body to express emotions through technical dance movements. It is mainly performed to music with lyrics and the song's lyrics are a driving force and key inspiration for the movement. Because a solid ballet/jazz based foundation is an essential requirement of this style of dance, students must be enrolled in a ballet or jazz class in order to take lyrical. In lyrical class, dancers are taught to hold out and connect the move for as long as possible and are taught to connect transitions smoothly. Dancers are taught to discover breathing, express feelings and portray all of this to the music. Lyrical dance has become a very popular dance form through shows such as "So You Think You Can Dance" and "World Of Dance".

Contemporary

Inspired by the works of dance legends such as Twyla Tharp and Martha Graham, contemporary expands the boundaries of ballet and modern dance. Contemporary dance involves integrating the mind-body-spirit connection with dance movements. There's a huge emotional connection to this style of dance. It is also important to note that a lot of improvisational skills are used in a contemporary dance form - improvisation meaning that the dancer uses whatever they feel at the moment to express the mood of the dance piece itself. Because a solid ballet/jazz based foundation is an essential requirement of this style of dance, students must be enrolled in a ballet or jazz class in order to take contemporary. Today's style of contemporary dance has become popular through shows such as "So You Think You Can Dance" and "World Of Dance".

Hip-Hop

Whether you're watching the latest music videos or popular TV shows such as "So You Think You Can Dance", "World of Dance" and even "Dancing With The Stars", hip-hop has become one of the most popular and demanded dance classes. In this class, you will learn the latest moves to the latest music. This includes a wide range of styles notably breaking, popping and locking. The feet are grounded, the chest is down and the body is kept loose so that a dancer can easily alternate between hitting the beat or riding through the beat style. Hip-Hop involves flexibility and isolations (moving a certain body part independently from others). Hip-Hop is very rhythmic with a lot of emphasis placed on musicality and being able to freestyle. All music in all classes will be age appropriate.

Acro

Acro classes will incorporate gymnastic and dance movements to a variety of age appropriate music. All levels will participate in rolling, stretching, flexibility and balance exercises to lay the foundation for future skills in acrobatics. The higher levels will be taught through the use of music and dance at a more advanced speed. Progressions will be made for skills such as back handsprings and flips. Mats and other learning tools/equipment will be used for the children's safety and learning.
